**Instructions for Completing Power Take-Off Credit Schedule**

For each vehicle reported on your IFTA tax return, please provide the following information:

Column A-1: Enter each vehicle equipment number. If the vehicle has not been assigned an equipment number, enter the vehicle license plate number.

Column A-2: Indicate whether the vehicle identified in column A-1 has a power take-off.

Column B: Describe the type of vehicle; dump truck, cement mixer, load compactor or garbage truck, mobile crane, etc.

Column C: Enter the total miles operated for each vehicle. Total of column C must equal the Washington IFTA tax return total miles, section 5.

Column D: Enter the total fuel placed into each vehicle. Total of column D must equal the Washington IFTA tax return total gallons, section 5.

Column E: Enter the Fleet Miles Per Gallon. The AMG should be the same as AMG on your IFTA tax return, section 5.

Column F: Enter the total Washington taxable miles operated for each vehicle. The total of this column should be the same total as your IFTA tax return on the Washington line, column 6E.

Column G: Enter the total Washington taxable gallons operated for each vehicle. This figure is computed by dividing your Washington taxable miles by your IFTA AMG. The total of this column should be the same total as your IFTA tax return on the Washington line, column 6F.

Column H: Enter the percentage factor (from WAC 308-77-112) applicable to the type of vehicle indicated in column B.

Column I: Multiply Washington taxable gallons (column G) by the Washington credit factor (column H) and enter the result here. Round the amount to the nearest gallon.

**Grand Total:** Total of column I transfers to line 19A on the front of the refund claim form.

**NOTE:** Mileage and fuel records must be kept by equipment number on a daily basis.
